	Conducting Marketing Research Ch 29 Sec.1 – Marketing Research	
The Marketing Rese	arch Process	
• Step 1:	– are customers	satisfied? Are prices
competitive? Are p	romotion activities effective?	
• Step 2:		
	Data – obtained for the	and used
specifically for the	ne particular problem or issue being studied.	
	Data – has	for some
purpose other th	an the current study.	
How Secondary Dat	a Are Obtained	
•	Sources	
• U.S	Sources	
- U.S. Census Bu	reau, SBA, Statistical Abstract of the U.S.	
 Consumer and Bus 	siness Information	
 Business and Trad 	e	
 Advantages of Sec 	ondary Data – Save	es time and money.
 Disadvantages of S 	Secondary Data – existing data may	or
available. Sometin	nes it is inaccurate.	
How Primary Data A	re Obtained	
•	– information is gathered througl	h the use of surveys
or questionnaires		
	– part of the target population that is assi	umed to represent
the		
-The	the sample size of people surv	eyed the
 	the results.	
Types of Surveys		
•	Interview – questioning	

- People are		to respond in person.		
•	nterview			
		view – A group of 6 to	12 people who are	
	by res	earchers to	a particular	
situation or	to a prod	duct.		
•In	terview			
- This type of survey has	the		for causing	
	on the p	part of those surveyed		
• Survey				
Observation Method				
• Actions of people are				
• shor	pping			
 Contrived or natural situa 	itions			
•	resea	rch – researcher obse	erves a purchase, then	
interviews to find out the	motivation			
The Experimental Method
